Dear friends of Ariel Ministries Australia,

This is our first “End of the year report.”

In 2011 our ministry was busy, and we want you to be informed of some of the things we did.

During the last 12 months we shared the Gospel with Jews and Gentiles, answered questions by both believers and unbelievers regarding the Messiahship of Yeshua (Jesus) and responded to questions on Biblical topics, in person, via email, skype and Facebook.

It is only in hindsight as we calculate the number that we realise how many studies and sermons the Lord enabled us to give. This year we presented 51 Bible Studies, gave 9 Sermons and dedicated a baby to the Lord.

The studies were well received in each group. Comments were made about the depth of material, how they have never heard the Jewish frame of reference before, and all want to hear more. We truly praise the Lord for this.

Australia is a big country, and that was reflected in our driving, we drove almost 4000 km and flew almost 2000 km for ministry purposes.

As to the number of meetings, emails, phone calls, and messages about Dr Fruchtenbaum’s up and coming Australia tour and Camp, we lost count.

By God's grace and in His pleasure we worked with three different Messianic Ministries in Sydney that reach Jewish people with the Gospel. We also meet quarterly with these and other ministries to pray and encourage one another.

We created a Facebook page for Ariel Ministries Australia, and through that we share some of the things we do, and have done.

Beside all these things, we still work at the University, our daughter got married, our son finished high school and we had an extended visit from my Dutch family.

Paul & Sue at their daughters wedding.

We appreciate your prayers and are thankful to all of you for remembering us. Your support makes the work of Ariel Ministries Australia possible. Thank you for standing with us! Should you have questions or ideas for our work, please do not hesitate to be in touch.

May the Lord God bless you and may God empower the work that we all do – not just to strengthen believers – but for those who’ve yet to experience the hope of the Gospel.

Paul & Sue Cohen
